### **About MFLEX**

MFLEX ([www.mflex.com](http://www.mflex.com)) is a global provider of high-quality, technologically advanced flexible printed circuits and assemblies to the electronics industry. The Company is one of a limited number of manufacturers that provides a seamless, integrated end-to-end flexible printed circuit solution for customers, ranging from design and application engineering, prototyping and high-volume manufacturing to turnkey component assembly and testing. The Company targets its solutions within the electronics market and, in particular, focuses on applications where flexible printed circuits are the enabling technology in achieving a desired size, shape, weight or functionality of an electronic device. Current applications for the Company's products include smartphones, tablets, computer/data storage, portable bar code scanners, personal computers, wearables and other consumer electronic devices. MFLEX's common stock is quoted on the Nasdaq Global Select Market under the symbol MFLX.

### ***Forward-Looking Statements***

**Certain statements in this news release are forward-looking statements that involve a number of risks and uncertainties. Such forward-looking statements include statements which may be preceded by the words "will," "expect" "scheduled" or similar words. For such statements, the Company claims the protection of the Private Securities Litigation Reform Act of 1995. Actual events or results may differ materially from the Company's expectations. Important factors that could cause actual results to differ materially from those stated or implied by the Company's forward-looking statements are disclosed in the Company's SEC reports, including its Quarterly Report on Form 10-Q for the quarter ended March 31, 2014. These forward-looking statements represent the Company's judgment as of the date of this release. The Company disclaims any intent or obligation to update these forward-looking statements.**
